

QUALITY WORK. HIGHEST STANDARDS.

Uncompromising. Integrity.
Professional. Competent. Cost
effective. It's the Talon way.

About Us

Founded in 2016 in Port Perry, Talon Industries Inc. has grown into a leading Pipe Trades, Mechanical and Electrical Contractor with offices in Port Perry.

Talon is a full-service Contractor, capable of self-performing installations of Plumbing, Millwrighting, Welding, Steam Fitting, HVAC, Sheet Metal, Fire Protection/Fire Sprinkler and Temperature Controls/Energy Management systems across the entire spectrum of construction projects.

Our Service and Warranty Department is well established and prepared to provide post-construction services.

The Special Projects Division handles the most complex and challenging projects making Talon one the most prominent mechanical and electrical Contractor's in the entire Greater Toronto Area.

During the past 5 years Talon has completed 6.25 Million in revenue. This large volume of work has enabled us to build a great team of skilled trade labour and professional staff which sets us apart from the competition.

Noteworthy is the company's strong belief in its employees, customer and "Giving Something Back" by continually supporting the community and non-profit organizations. Our ability to offer high quality products and deliver outstanding customer service has allowed Talon to foster long term relationships with many of our customers. Fast turn-around, personalized customer service, and large factory capabilities make us uniquely suited to handle local and national projects.

Mission Statement

We will continue to execute and provide solutions utilizing industry best practices and equipment in order to meet and surpass our clients' expectations. Our solutions are met with the highest standards and are value driven.

Vision Statement

To be the long-lasting partner of choice to our clients and be the industry leader for providing turn-key solutions to our clients.

Core Values

We are proud to offer uncompromising integrity, professional competence, highest safety standards and cost effectiveness.

Technical Expertise

We employ diverse, experienced, management executives and consultants who understand the industry of our clients and provide solutions with professional competency.

Talon Culture

Talon is a family oriented culture that genuinely cares about its employees, customers and the community. The company's first priority is to the employees, followed closely by the customers and then the community and family.

Safety plays a paramount importance to the culture and business concerns of the Company. "Goal Zero" is a relentless and ongoing effort to prevent accidents, injuries and eliminate lost time. A best-in-class safety program is maintained, supported and embraced by all levels within the organization. Bottom line, everyone should return home each day injury free.

Quality work done on time and on budget is a matter of pride and reputation shared by the entire Talon team. Hard work and integrity are the core values that were instilled by Talon beginning in 2016. Those values are still the drivers of the company's enduring culture. Although, we understand that past performance has shaped our reputation, it is the current and future performance that continuously keeps us striving to perform at an exceptional level.

Talon conducts all aspects of its business in an honorable way, recognizing there is no right way to do a wrong thing.

Integrated Project Logistics Services

Over the years, Talon Industries Inc is the one-stop integrated project logistics service solution provider in Canada for Infrastructure, Oil & Gas, Petrochemical, Power and Construction industries. We specialize in Heavy Lift, Heavy Haulage, Offshore & Marine service, total logistics and a fabrication shop.

We have grown beyond being a Crane, Heavy Equipment's, Low Bed Trailer and Rental Company to a diversified service provider for heavy lift and haulage, process equipment installation and Road & Marine transportation. Talon has built up a strong reputation for best-in-class services and top-quality delivery through successful execution of numerous projects.

The promising outlook in the booming Oil, Gas and Power, Construction industries, an able management team, inherent strengths in our core business and focused strategies will allow us to take advantage of the vast opportunities in the market and position our company strongly for future growth.

ASME B31.3 Process Piping

CSA Standard B51, Boiler, Pressure and Pressure Piping Code and ASME B31.1 Power Piping

CSA Standard B51, Boiler, Pressure Vessel and Pressure Piping Code

Quality Assurance

Talon industries understands how crucial QA/QC is to the success of any project.

As with all types of fabrication, Quality Control is not only a requirement, it is our philosophy. Talon Industries routinely works to ASME B31.1, ASME B31.3, CSA B51 and API standards.

Whether your materials are carbon steel, stainless steel, chrome, inconel, hastelloy or aluminum, Talon Industries has the proven experience to fulfill your needs... no matter what size your project is.

Safety

Our number one priority is the safety our personnel. We embrace a zero incident culture throughout our organization, and strive to include all stakeholders involved in our projects in our program. The Talon Managements team have all worked in the field and are familiar with all statutory rules and regulations and legislative changes in health and safety, under which we strictly operate.

We believe that a strong Safety Program seeks the participation and input of all team players involved in the project, including the owner, project manager, subcontractors and all craft personnel.

Safety Record

Our experience modification factor and incident rates over the last five years have consistently been far better than the industry average in the Greater Toronto Area.

Training

Training and prevention is a continuous occurrence for all levels of employment. Safety Training includes, but not limited to, New Hire Safety Orientation, Fall Protection, Scaffold, Excavation/Trenching, Forklift/Rough Terrain, Scissors Lift, Snorkel Lift Certification, Accident Reporting/Investigation, Confined Space, and Ladder Safety.

Past **Projects**

Talon Industries has successfully completed successfully projects of a substantial size as well as smaller projects. The common thread is that all projects have been completed on time, on budget with zero incidents.
